

Lightning Alerts

Lightning Alerts from LegiStorm keep you up to date when it matters most. We turn your saved searches into email alerts so you know what's new across our site.

The screenshot shows the 'StormFeed - Search Results' page. A modal window titled 'Lightning Alert Name (required):' is open, allowing users to set up an alert. The modal includes a text input field with 'Health Care Reform' entered, 'Alert options' with radio buttons for 'Press Releases', 'Twitter', and 'All' (selected), and 'Email frequency' with radio buttons for 'Instantly', 'Daily', and 'Weekly'. Below these options, it states 'Email alerts will be sent to myemail@domain.com' and a 'Save this Lightning Alert' button. The background shows search results for 'Health Care Reform' with various news snippets.

The screenshot shows a 'Lightning Alerts' notification email. It features a 'Press Releases' section with a headline 'In Case You Missed It Congressman Black: IRS Scandal Exposes Dangers of Obamacare' and a 'Tweets' section with a tweet from @PressSec: 'RT @GOP: @PressSec says senior WH officials knew of IRS targeting after April 24 yet saw no need to notify Obama. Why not? #clot'. At the bottom, there is contact information for LegiStorm and buttons for 'Edit this Alert' and 'Stop Alerts'.

Get notified on your schedule

Lightning Alerts are available for a growing number of our products. You can receive email alerts for Hearings, Town Halls, Storm Feed tweets and press releases, and Congressional Research Service and other policy reports.

Set up an unlimited number of alerts based on any search criteria. Notifications come on your schedule – whether instantly or pre-selected times.

Keep up with the issues that matter to you. Getting alerts is as simple as running a search and setting your delivery frequency and time.
