

## Hearings

We know that hearing schedules can be challenging to track. There are just enough to monitor that it becomes a chore, especially when they change constantly.

### Committee Schedules

### Find only the hearings you need

LegiStorm tracks all upcoming committee and subcommittee hearings so you don't have to worry. You can find and be notified of hearings by committee, by keyword, witness, date, and even by members invited.

### Make tracking easy

If you identify a specific hearing you want to track intensely, a couple of mouse clicks is all you need to set up a Lightning Alert to monitor any changes we know about that hearing, including time or location change, or new witnesses or written testimonies being made available. Add an upcoming hearing directly to your calendar app with a single click of your mouse.
